

— SAFETY DATA SHEET

NN-DustGuard PSPP

Safety Data Sheet — per GHS / India CSMR 2020

SDS No.	Revision	Issue Date	Format
NNPL/SDS/PROD-01	1.0	27-06-2026	GHS Rev.9 / 16-section

1 IDENTIFICATION

Field	Detail
Product name	NN-DustGuard PSPP
Product type	Polymer emulsion dust suppressant (concentrate)
Product code	PSPP-01
Recommended use	Dust suppression / soil stabilisation on industrial sites
Supplier	NilayNarayan Polychem LLP
Address	Plot No. D-167 (P), 4-5, Kandra Industrial Area, Govindpur, Jharkhand – 826010, India
Emergency / contact	+91 82925 84106 • nilaynarayanpolychem@gmail.com

2 HAZARD IDENTIFICATION

GHS classification: Not classified as hazardous under GHS in the supplied form. (Confirm against your formulation.)

Signal word: None / Warning (if applicable)

Precautionary statements: May cause mild eye/skin irritation on prolonged contact. Wash hands after handling. Avoid release to the environment in concentrated form.

3 COMPOSITION / INFORMATION ON INGREDIENTS

Component	CAS No.	Conc. %
Acrylic / styrene-acrylic copolymer	Proprietary	40 – 50
Water	7732-18-5	50 – 60
Surfactants / additives	Proprietary	< 3

Exact composition withheld as a trade secret; hazardous components, if any, disclosed per regulation. Edit to match your formulation.

4 FIRST-AID MEASURES

Route	Measure
Inhalation	Move to fresh air. If mist is inhaled and discomfort persists, seek medical advice.
Skin contact	Wash with soap and water. Remove contaminated clothing. If irritation persists, seek medical advice.
Eye contact	Rinse cautiously with water for several minutes; remove contact lenses if present. Seek medical advice if irritation persists.

Route	Measure
Ingestion	Rinse mouth. Do NOT induce vomiting. Seek medical advice. Never give anything by mouth to an unconscious person.

5 FIRE-FIGHTING MEASURES

Field	Detail
Suitable media	Water spray, foam, dry chemical, CO ₂
Specific hazards	Non-flammable (water-based). Dried polymer film is combustible; thermal decomposition may release CO/CO ₂ and irritating fumes.
Protective equipment	Self-contained breathing apparatus and full protective gear for fire-fighters.

6 ACCIDENTAL RELEASE MEASURES

Personal precautions: Wear gloves and eye protection. Spilled material is slippery — prevent slips and falls.

Environmental precautions: Prevent entry to drains, soil and watercourses. Contain spills.

Clean-up: Contain with inert absorbent (sand/earth), collect into labelled containers for disposal. Wash residual area with water.

7 HANDLING & STORAGE

Field	Detail
Safe handling	Use with adequate ventilation. Avoid eye contact and prolonged skin contact. Wash hands after use.
Storage	Cool, dry, shaded; 5–40°C; keep from freezing. Keep containers tightly closed.
Incompatibilities	Strong oxidisers, strong acids/alkalis; avoid freezing which may break the emulsion.

8 EXPOSURE CONTROLS / PERSONAL PROTECTION

Control	Detail
Engineering	General ventilation adequate for normal use; local exhaust if misting.
Respiratory	Not normally required; use mist mask if spraying in confined areas.
Hands / skin	Nitrile or rubber gloves; overalls.
Eyes	Safety goggles / face shield when splashing is possible.
Exposure limits	No specific OEL assigned for the mixture. (Confirm for any disclosed component.)

9 PHYSICAL & CHEMICAL PROPERTIES

Property	Value
Appearance / odour	Free-flowing liquid, characteristic odour

Property	Value
pH	pH 6.5 – 8.0
Specific gravity	1.10 – 1.40 g/cc
Density	1.10 g/cc and above
Solubility in water	100% soluble in water of pH 6.5 – 8.0 at NTP
Flash point	> 175°C
Flammability	Non-inflammable
Bio-degradability	Bio-degradable

10 STABILITY & REACTIVITY

Field	Detail
Stability	Stable under normal storage and handling.
Conditions to avoid	Freezing, extreme heat, prolonged sunlight.
Incompatible materials	Strong oxidisers, strong acids and alkalis.
Hazardous decomposition	CO, CO ₂ and irritating organic vapours on combustion of dried film.

11 TOXICOLOGICAL INFORMATION

The product is expected to be of low acute toxicity under normal handling. Prolonged skin or eye contact may cause mild irritation.

Hazardous / toxic ingredients (RCRA): Evaluated against the U.S. Environmental Protection Agency (USEPA) Resource Conservation & Recovery Act (RCRA), 1976, which governs land disposal of solid wastes and requires testing for the 8 elements of concern — Arsenic, Barium, Cadmium, Chromium, Lead, Mercury, Selenium and Silver.

12 ECOLOGICAL INFORMATION

Bio-degradable. The cured film is inert. Do not discharge undiluted concentrate to surface water; apply only as directed.

13 DISPOSAL CONSIDERATIONS

Dispose of contents and containers in accordance with the Hazardous & Other Wastes (Management & Transboundary Movement) Rules, 2016 and applicable State Pollution Control Board requirements. Do not reuse empty containers without cleaning.

14 TRANSPORT INFORMATION

Mode	Classification
Road / Rail / Sea / Air	Not regulated as dangerous goods (confirm against final classification).
UN number	None / Not applicable
Proper shipping name	Not restricted

15 REGULATORY INFORMATION

Classified and labelled per the Chemicals (Management & Safety) framework / GHS as adopted in India. Manufactured by an entity authorised under applicable State Pollution Control Board norms. Edit with specific registration/authorisation references.

16 OTHER INFORMATION

Prepared by: NN Polychem. Revision 1.0, [Edit: DD MMM YYYY].
